

Aalborg Container Terminal

Make demands for your goods transportation

In Aalborg, you'll find an 89,000 sqm container terminal in the heart of Scandinavia, connected to the global network through a weekly feeder route to and from some of the world's largest container ports in Hamburg and Bremerhaven:

- Regional focus
- Ample space
- Combined logistics solutions via sea, road, and railway
- Optimal facilities for efficient container handling
- Extraordinarily fast turnaround, reducing transport time, costs, and environmental impact
- Flexibility and tailored solutions for each customer

CONTAINER SERVICES AT AN APPROVED WORKSHOP

Containers are repaired and serviced at ProTruck's workshop located within the terminal area. The workshop has a massive fleet of equipment and machinery for handling all tasks and is focused on transitioning to greener equipment, positively contributing to your overall environmental footprint.
